Solar Photovoltaic Power Generation Data Card

Overview

Find and download resource map images and data for North America, the contiguous United States, Canada, Mexico, and Central America. The Solar Power Generation Data dataset provides synchronized inverter-level AC/DC power and yield measurements together with plant-level weather sensor observations from two grid-connected photovoltaic plants in India over 34 days at approximately 15-minute resolution. It comprises four CSV files. The NREL PVDAQ is a large-scale time-series database containing system metadata and performance data from a variety of experimental PV sites and commercial public PV. It has two pairs of files - each pair has one power generation dataset and one sensor readings dataset.

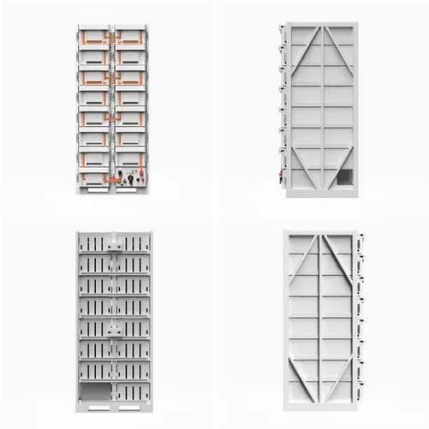
Solar Photovoltaic Power Generation Data Card

Solar Power Generation Data , IEEE DataPort

Participants are required to use the provided dataset to analyze, visualize, and predict solar energy generation and weather patterns. The goal is to develop innovative solutions or insights ...

Solar Energy Data: Best Datasets & Databases 2026 , Datarade

Discover the top solar energy data for 2026. Find reliable and up-to-date solar energy datasets and databases, including solar farm and solar power datasets. Explore on Datarade.ai for the best providers.



Solar power generation, 2025

This dataset contains yearly electricity generation, capacity, emissions, import and demand data for over 200 geographies. You can find more about Ember's methodology in this ...

NASA POWER , Homepage

NASA POWER's Dependable Data Ensures Dependable Energy for U.S. Utility Company Reliable solar and weather data provides accurate performance monitoring for 360 community solar garden ...

Dataset

This data packet contains supply curves, hourly generation profiles, and a composite siting exclusion TIFF for utility-scale PV across the contiguous United States .

Global Photovoltaic Power Potential by Country

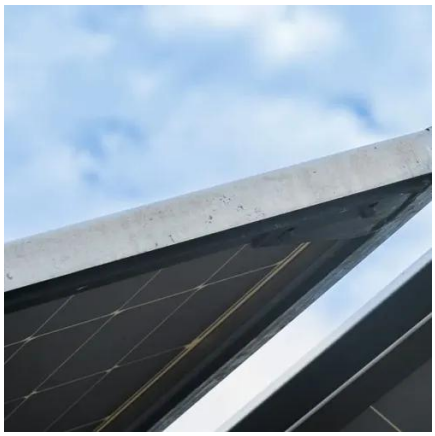
The Global Solar Atlas provides a summary of solar power potential and solar resources globally. It is provided by the World Bank Group as a free service to governments, developers and the general ...

Solar Power Generation Data

Solar power generation and sensor data for two power plants. This data has been gathered at two solar power plants in India over a 34 day period. It has two pairs of files - each pair has one power ...

Data and Tools , Solar Research , NLR

Browse or search this comprehensive listing of data and tools for analyzing photovoltaic (PV) and concentrating solar power (CSP) technologies, solar grid and systems integration, and ...



Solar Resource Data, Tools, and Maps , Geospatial Data Science , NLR

Solar Resource Maps and Data Find and download resource map images and data for North America, the contiguous United States, Canada, Mexico, and Central America. Solar Supply ...

Solar PV

Why is solar PV important? Solar photovoltaics (PV) is a very modular technology that can be manufactured in large plants, which creates economies of scale, but can also be deployed in very ...
