Check each product page for other buying options. This guide. □Multiple Protection□ Our solar generator kit adopts a built-in fuse, safe charging design, and cooling fan to prevent the car power converter from overheating, featuring power-saving and energy-saving, overvoltage, overload, overcurrent, short circuit, under-voltage, overheating, short circuit. Finding reliable solar power for a 110V outlet means weighing versatility, portability, and output. Nature Power Solar Panels take the sun's energy and turns it into electric current. These solar panels are high efficiency 12-Volt solar panels featuring sturdy aluminum frames and high transparency tempered glass. They are the most cost effective way to use solar to charge the River series and the Delta 2 and Delta 2 Max. by combining two or more you can get close to max charging on the aforementioned products. They are small and lightweight and, for me at least, setup is quick and easy.
