

500kWh Foldable Container Manufacturer

Overview

Each SolaraBox container is engineered by a certified R&D team with expertise in solar energy, electrical integration, and structural design. Our systems comply with standards for PV modules and energy storage. Whether serving large-scale factories or smaller manufacturers. This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations. Providing 24/7 clean energy with scalable solar capacity of 30-200kW and battery capacity of 50-500KWh. Engineered for disaster response, remote sites, and temporary installations with 95%+ uptime reliability.
