

Application for installing photovoltaic panels in dormitories

Overview

Yes, most solar panel installations require permits. Whether you're installing rooftop panels or a ground-mounted system, local building departments typically require permits to ensure safety, code compliance, and proper grid connection. Understanding the capacity needs of the dormitory is paramount, as solar panels must meet or exceed the energy demands of the space. Community solar programs provide options for those unable. The Weatherization Assistance Program (WAP) provides funding to states to help low-income households reduce energy costs by increasing their home's energy efficiency.
