

Belgian energy storage project subsidies

Overview

With various programs, such as VLIF and EP+, companies can receive up to 40% subsidy for investments in battery storage systems. In autumn 2024 two draft regulations were published regarding state aid for large-scale electricity storage systems (BESS), one from the Modernisation Fund (“MF ”) 1 - and the second under the National Recovery and Resilience Plan (“RRP ”) 2. These two subsidy schemes, now under legislative review. Discover the support for green energy storage in Flanders. Photo by Anna Vasileva The project is developed in Vise, Liege province, in partnership. In April, an inauguration was held for the 10MW/20MWh EStor-Lux battery storage project in Bastogne, Belgium, with attendees including the country's federal energy minister Tinne Van der Straeten.
