

Brussels Power Plant Energy Storage Project

Overview

ENGIE and NHOA have confirmed a partnership to build a 320 MWh battery energy storage system (BESS) at Drogenbos, Brussels. This project is ENGIE's third battery storage development in Belgium. Just a few weeks after starting commercial operation of the first half of its battery park in Vilvoorde, Engie has also connected the second 100 MW/400 MWh portion to the high-voltage grid.

Brussels Power Plant Energy Storage Project

One of Europe's largest battery parks to be built in Belgium

GIGA Storage Belgium develops and deploys large-scale energy storage projects within the Belgian energy network. The facility will provide stored renewable energy during periods of low ...

ENGIE launches Europe's largest battery energy storage system in

French electric utility ENGIE SA has undertaken construction of a 200-MW/800-MWh battery energy storage system (BESS) at its Vilvoorde site on the outskirts of Brussels in Belgium.

Engie's 800 MWh Belgian battery now fully operational, expansion on

...

The BESS project located at Engie's Vilvoorde gas power plant site, north of Brussels, was completed barely 16 months after the groundbreaking ceremony and two months ahead of ...

Engie Completes One of Europe's Largest Battery Storage Projects

Brussels, November 2024 -- French energy giant Engie has announced that its 200 MW/800 MWh battery energy storage system in Vilvoorde, Belgium, is now fully operational, marking ...

ENGIE, NHOA Greenlight 320 MWh Battery Storage (BESS) Project ...

ENGIE and NHOA have confirmed a partnership to build a 320 MWh battery energy storage system (BESS) at Drogenbos, Brussels. This project is ENGIE's third battery storage ...

[ENGIE to build a new battery park in Drogenbos, ...](#)

ENGIE will soon begin construction of a new 80 MW/320 MWh battery park at its site in Drogenbos (Flemish Brabant), near Brussels.

Engie Inaugurates 800 MWh Battery Park Near Brussels in Belgium

Engie has inaugurated a battery storage park on the site of a former coal-fired power plant in Vilvoorde, in the industrial suburbs of Brussels. The infrastructure, commissioned in late 2025, spans 3.5 ...

[ENGIE and NHOA Energy Collaborate for](#)

320 MWH BESS

Scheduled to begin construction in March 2026 and commissioned by September 2027, the project aims to deliver grid flexibility, integrate renewable energy, and enhance national grid ...

Sungrow Powers ENGIE's EUR290M Vilvoorde Battery Park, Europe's ...

Sungrow powers ENGIE's 400 MWh Vilvoorde battery project in Belgium, Europe's largest, boosting clean energy, grid stability, and 96,000 homes by 2025.

ENGIE and NHOA Energy Expand Their Partnership in Belgium to ...

"With this new battery park, we are strengthening our current position as the Belgian reference in flexible energy generation and storage. It is no coincidence that flexibility is one of the
