

Buenos Aires Mobile Energy Storage Container High Efficiency Discount

Overview

With an 18-month project implementation timeline, the program seeks to rapidly scale up energy storage capacity to meet the region's growing demand and reduce dependence on fossil-fueled peaking plants. The Argentinean authorities plan to install the new storage capacity in critical nodes of the metropolitan area of Buenos Aires, with an estimated investment of \$500 million and an execution period of between 12 and 18 months. From pv magazine Latam The Argentine Energy Secretariat, which is part. Argentina has taken a major step toward modernizing its energy infrastructure with the launch of a 500 MW battery energy storage system (BESS) tender under the AlmaGBA program. Ideal for remote areas, emergency rescue and commercial applications. Fast deployment in all climates. February 18, 2025 Luis Ini Energy.
