

Cambodia s new solar panel selling price

Overview

Let's face it: Cambodia's solar panel price remains 20-30% higher than in neighboring Vietnam or Thailand. But why?

Well, three factors dominate: import dependence, fragmented supply chains, and limited financing options. Over 80% of photovoltaic systems here rely on Chinese or European imports. PHNOM PENH – Massive US tariffs imposed on Cambodia's solar panel exports will have only a small effect on the country's economy and negotiations can be expected, an economist says. The US plans to impose tariffs of up to 3,521 percent on solar panels from Cambodia, Thailand, Malaysia and Vietnam. At its peak in 2023, Cambodia exported solar panels worth as much as US\$2.4 billion, making them the country's most significant non-textile manufacturing export. This is part of its Power Development Masterplan (PDP) to transition the country towards clean energy and reduce carbon dioxide emissions.

Cambodia s new solar panel selling price
