

# Can photovoltaic panels be moved How to dismantle them

## Overview

---

The original panels need to be removed for the new ones to be installed. If you are planning to move, carrying your solar power system is advisable. We recommend working with a solar installation company for any removal as they will have the technicians and electricians on hand to make sure your tie to the electrical grid is maintains and no injuries. The simple answer is yes; solar panel arrays are designed to be modular and demountable, not permanent fixtures. This necessity might stem from planned roof maintenance, system upgrades, or preparations for selling the property.
