

# Can the solar power board be wiped

## Overview

---

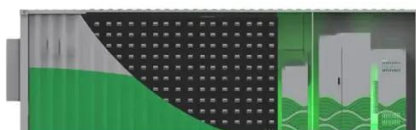

Turn off your solar panel system before cleaning. Within solar energy circles, cleaning solar panels is a hot topic of debate: should you or shouldn't you?

While some suggest that regularly washing panels is necessary to get the maximum solar conversion possible. Others feel that solar panels should only get a rinse off once in a while if you see. Cleaning and maintaining solar panels is crucial for their efficient operation. Proper cleaning methods not only extend the life of the equipment but also maximize energy output. In the Middle East, Ecoppia deploys solar-powered autonomous robots to clean PV panels nightly using soft microfiber and airflow rather than water, as high-pressure and reducing your carbon footprint. Dislodge any loose debris or dust with a soft brush. For context, clean panels can.
