

China exports photovoltaic panels

Overview

93 GW of modules from January to December 2024, up 13% YoY from 207. In December 2024, the five largest markets importing Chinese modules were, in order, Brazil, the Netherlands, India, Saudi Arabia, and Spain, with monthly imports making up 42% of. China exported 235. Ember's China Solar Export dataset provides the following information: The IEA has stated that China's solar photovoltaic exports account for 80% of the global market. While there. China has invested over USD 50 billion in new PV supply capacity – ten times more than Europe – and created more than 300 000 manufacturing jobs across the solar PV value chain since 2011. Today, China's share in all the manufacturing stages of solar panels (such as polysilicon, ingots, wafers. China exported 16. 18 GW, according to InfoLink's customs data.

China exports photovoltaic panels

[Executive summary - Solar PV Global Supply Chains](#)

Solar PV products are a significant export for China. In 2021, the value of China's solar PV exports was over USD 30 billion, almost 7% of China's trade surplus over the last five years.

[China's Solar Panel Exports Fall 3% in June, Report Shows](#)

China exported about 21.7 gigawatt of solar panels in June, down 3 percent from May and 2 percent from a year earlier, according to the report released by the Chinese market research and ...

[China Exports 235.9 GW of Solar Panels in 2024](#)

China exported 235.93 GW of PV modules in 2024, up 13% from 207.99 GW in 2023, according to customs data from PV InfoLink. Global module shipments increased 13% year on year, ...

China solar exports: Remarkable Rise Defies 2025 Curbs

In conclusion, China's solar module exports in 2025 tell a story of adaptation and enduring strength. Despite internal and external pressures to manage oversupply, the industry ...

China's Solar Panel Exports Surge by 13% in 2024

Overview of China's Solar Panel Exports China remains the global leader in photovoltaic (PV) panel exports, with shipments reaching 235.93 GW in 2024--a 13% increase compared to 2023.

China's Solar PV Exports

The latest monthly solar PV export data from the world's largest exporter, China, by country or region of destination.

China's solar PV module exports hit

236 GW in 2024, with growth in ...

China exported 235.93 GW of modules from January to December 2024, up 13% YoY from 207.99 GW. In December 2024, the five largest markets importing Chinese modules were, in ...

[China's PV module shipments reach new high, ...](#)

Exports of both PV cells and module from China in 2024 reached new highs, according to recently released customs data.
