

China s largest desert solar power plant

Overview

The installation, located in Urumqi in the northwestern region of Xinjiang, in the Gobi Desert of China, has 3.5 GW of generation capacity, and at present is the largest solar power installation worldwide. State-owned China Green Development Group (CGDG) is behind the project. The company said a. Once a coal mining site, the Otog Front Banner, Ordos in Inner Mongolia is now home to the Mengxi Blue Ocean Photovoltaic Power Station, China's largest single-capacity solar power plant.
