

China s lithium battery energy storage ranking

Overview

The China Energy Storage Alliance (CNESA) has released its 2024 rankings of Chinese energy storage companies, with CATL, Sungrow, and CRRC Zhuzhou Institute securing top positions across key segments. From ESS News China's top energy storage companies in 2024 have been named by the China Energy. On April 10, 2025, the 13th Energy Storage International Conference and Expo (ESIE 2025), jointly hosted by the China Energy Research Society, the China Energy Storage Alliance (CNESA), and the Institute of Engineering Thermophysics, Chinese Academy of Sciences, was grandly held at the Beijing. According to InfoLink's Global Lithium Battery Supply Chain Database, the global shipment of energy storage cells in the first quarter of 2024 amounted to 38.82 GWh, of which utility-scale and commercial and industrial projects accounted for 3.475 GWh, and small-scale (including telecommunication). The fifth edition of BNEF's ranking finds that China's improved performance in infrastructure, paired with its resilience amid competitive market conditions, gave it the boost needed to reclaim first place from Canada. LONDON, 13 May 2025 - China has overtaken Canada for the top spot in. For eight consecutive years, CATL has ranked first globally in power battery installation. In 2024, its global installed capacity reached 339.
