

Custom-made standard power scale inverter cabinet for subway stations

Custom-made standard power scale inverter cabinet for subway station

3rd Rail Inverters, Backup Inverters & Power Supplies , DSPM

DSPM's Auxiliary Power Supply is a compact wall-mounted inverter that is designed to generate a pure sine wave, connecting to the subway track system. The input DC voltage can be between 300V to ...

[LTI ProUPS Third Rail Floor Mount Inverters](#)

LTI Industrial Third Rail inverters are specifically designed for subway and railway applications. With rail applications, the incoming power can be extremely dirty and harmful to anything connected to it.

Custom Inverter Cabinets

Engineered for precision power control, our custom inverter cabinets support OEM/ODM projects with IP66 protection & thermal management

Third Rail Inverters

Built-in power quality protection restarts the unit when transient voltage, spikes, or sags are encountered. Available voltages range from 120 VAC -- 480 VAC, with 500 W -- 10 kW capacities. ...

Galaxy Series 600 VDC Nominal Input Pure Sine Wave DC-AC Inverters

Subway Applications: Our durable 600 VDC inverters are currently being used by such customers as Chicago Transit Authority and Long Island Railroad for such various applications as providing ...

Custom Power Distribution Equipment by Northwest Rail Electric

Our custom projects have been numerous and diverse, but this selection gives a taste of the capabilities of Northwest Rail Electric in the area of power equipment and distribution.

Railway Power Supply Solutions

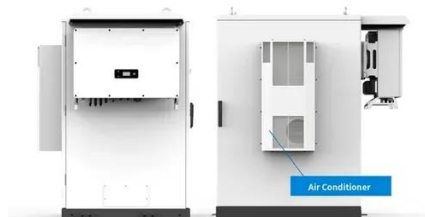

We can optimize our standard products by installing them into custom enclosures and adding meters, switches or any other functionality you require, with little or no NRE!

[Locomotive and train inverters by Ekyrail](#)

This small and lightweight inverter is an ideal tool for those who work in a locomotive, it is designed to securely power a laptop as well as any other device requiring 100VA or less.

Utility-Scale Power Conversion Solutions EPC Power

The CAB1000 is a scalable power inverter that provides reliable energy conversion for applications of any size. Designed for both UL and IEC markets, it's the easy-to-use building block that gets your ...

LTI Third Rail Inverters

LTI's inverter system is designed to withstand all transient spikes that frequently occur when rail cars pass by. All systems operate within the DC voltage range of 350 - 850VDC. These systems can be ...
