

# Energy storage pack box lifting device

## Overview

---

The crate lifting device is designed for front-loading capacities of up to 100 kg and 200 kg and enables ergonomic working through stepless electric container positioning. Positioning can be controlled manually via buttons on the column or in automatic mode with light barriers. Let's face it - hoisting energy storage battery boxes isn't as simple as moving furniture. And just like you wouldn't let a rookie mover handle your grandma's antique vase, proper hoisting. Our specialized box lift equipment is designed to safely and efficiently lift and move heavy boxes. We offer a state-of-the-art solution for box handling, offering speed, user-friendliness. Key Trend: The average weight of utility-scale battery containers has increased by 27% since 2020, requiring specialized hoisting solutions. Now imagine it crashing down.
