

# Energy storage policy updates panama city

## Overview

---

As we approach 2026, the combination of AI-driven energy management and new DC-coupled solar-storage systems could slash energy costs for 90% of Panama City businesses. With the Panama Canal expansion requiring 30% more power by 2026 and tropical storms becoming 40% more frequent since 2020, the city's energy infrastructure is reaching its breaking point. The largest energy storage project to solar and storage project in Texas (pictured). The projects are all supported by funding from BEIS, through the. energy industry will gather in Panama in 2025.

## Energy storage policy updates panama city
