

Eritrea microgrid economics

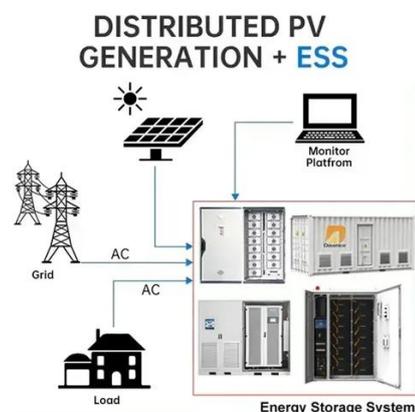

Overview

This report discusses the significant challenges and opportunities related to energy access in Eritrea, highlighting the role of reliable and affordable renewable energy supply in socio-economic transformation. Spearheaded by the African Development Bank (AfDB), this ambitious project aims to turn the vast desert landscape. Eritrea's energy generation heavily relies on imported fossil fuels, mainly diesel, and suffers from high operational costs and frequent power outages due to an aging infrastructure. Eritrea is embarking on a pivotal renewable.
