

# Fixed EPC General Contracting for Data Center Cabinets for Subways

## Overview

---

Most EPC contracts for large projects are fixed-price (or Guaranteed Maximum Price) agreements. From a risk perspective, this shifts a significant portion of cost risk to the EPC contractor. Here's how EPC improves risk management and execution outcomes for data center projects: Early Risk Identification and Planning: In an EPC project, all key players - engineers, constructors, major equipment vendors - come together from day one during project development. This allows for. Domaco-Encocorp provides full EPC contracting services to deliver turnkey data center projects. With decades of combined experience, our team is. CHOOSING THE RIGHT CONTRACT FORM: D&B OR EPC?

Given the specialist nature of data centers, data center owners and investors commissioning data centers typically look to employ a contractor with data center engineering expertise to act as a single point of responsibility to deliver both the design. DC&T offers complete engineering, procurement and construction services for future-ready data centers. Our Team offers full-service building and facility execution capability with in-house architectural, civil/structural, electrical, mechanical/HVAC, fire. Mission critical infrastructure is increasingly important for public, private, and government organizations.

## Fixed EPC General Contracting for Data Center Cabinets for Subways
