

# France installs solar power generation for home use

## Overview

---

9 MW of solar in 2025, according to new data released by French grid operators Enedis and RTE. The figure set a new record for France's PV sector, surpassing the 4.2 gigawatts (GW) of new solar photovoltaic (PV) capacity in the first nine months of 2025. 6 GW. France is continuing its ambitious push into renewable energy, installing an impressive 4. While this represents a robust expansion, the pace shows a. Solar installations are growing in popularity among homeowners in France, with nearly 200,000 installations during 2024 - a 52% growth compared to the previous year.

## France installs solar power generation for home use

### [Sunset or sunrise: the future of residential solar in France](#)

The residential solar market in France remains relatively young, with healthy market dynamics that will likely sustain steady growth through to 2030. But, as self-consumption rises, ...

### [France Reaches 23.7 GW of Solar Power](#)

These regions currently have the largest installed capacities, accounting for 52% of France's total solar power in the third quarter of 2024.

### [Going solar in France: what homeowners need to know](#)

Solar panels installation in France: Find out the costs, incentives (reduced VAT, grants), planning, average use, & insurance considerations.

### [France solar power: Impressive 4.2 GW Added in 2025](#)

France is continuing its ambitious push into renewable energy, installing an impressive 4.2 GW of new solar capacity in the first nine months of 2025. This brings the nation's cumulative ...

## National Survey Report of PV Power Applications in France 2024

In 2024, France set a new benchmark for PV deployment, installing over 6 GW of new PV capacity. This marks the strongest year on record for PV in France, underscoring the country's commitment to ...

### [France installs 5.9 GW of PV in 2025](#)

France deployed 5.9 MW of solar in 2025, according to new data released by French grid operators Enedis and RTE. The figure set a new record for France's PV sector, surpassing the 4.6 ...

## Solar photovoltaic energy in France

In 2023, the PV energy capacity in France amounted to approximately 20.5 gigawatts, making France the fifth European country for cumulative PV capacity that year. Despite this high ...

### Government data shows chart-

## topping growth in unexpected industry

Numerous countries are incorporating solar energy into their grids to lower energy costs, prevent power losses, and more. And France is one of the leaders of the pack. According to ...

## France Deploys 4.6 GW of PV in 2024

The figure set a new record for France's PV sector, surpassing the 3,135 MW installed in 2023, 2.6 GW in 2022, and 2.8 GW in 2021. Nearly 240,000 solar systems were connected last year, ...

## France Installs 4.2 GW of Solar PV Capacity in First Three Quarters of

Recent data released by Enedis, France's electricity distribution network operator, shows that the country's grid added 4.2 gigawatts (GW) of new solar photovoltaic (PV) capacity in the first ...
