

# French lithium battery energy storage project construction

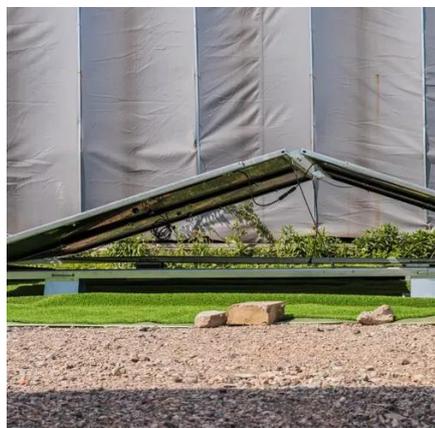

## Overview

---

China's Envision Energy has been selected by Kallista Energy to deliver a 120 MW/240 MWh battery energy storage system (BESS) in Saleux, northern France. The project represents Envision's first independent storage contract in the French market and signals its continued. Envision Energy, a world leader in green technology for wind turbines, energy storage, and green hydrogen solutions, announced that it has signed an EPC (engineering, procurement, and construction) contract to supply Kallista Energy, a European renewable energy producer, with a 120 MW/240 MWh. Envision Energy announced today that it has executed an EPC (engineering, procurement and construction) agreement to supply 120 MW / 240 MWh Lithium Iron Phosphate (LFP) battery energy storage project in Saleux, located in the Hauts-de-France region of France for Kallista Energy, a European. Envision Energy has signed its first independent energy storage contract in France, under which it will deliver a 120 MW/240 MWh turnkey project in Saleux for Kallista Energy.

## French lithium battery energy storage project construction

### Envision Energy secures first battery storage contract in France

China's Envision Energy has been selected by Kallista Energy to deliver a 120 MW/240 MWh battery energy storage system (BESS) in Saleux, northern France. The project represents ...

### [Envision Energy wins 120-MW battery contract in France](#)

The company has signed an engineering, procurement and construction (EPC) for the scheme, representing its first independent battery energy storage contract in France.

### Envision Energy secures 120 MW energy storage contract in France

Under the agreement, the company will supply a 120 MW/240 MWh lithium iron phosphate battery energy storage project for Kallista Energy in Saleux, France. Construction of the ...

### Envision Energy enters French energy storage market as it is ...

Beginning construction in June 2025, Envision Energy will supply a minimum of a 14 year long-term maintenance (LTSA) agreement, providing continuous presence in the region beyond the ...

### [Envision Energy wins French 120 MW energy storage contract](#)

Envision Energy signs a turnkey contract with Kallista Energy for a 120 MW / 240 MWh energy storage project in Saleux, Hauts-de-France, marking its entry into France's stationary battery market.

### [Envision Energy Secures Major BESS Deal in France](#)

Envision Energy will provide a minimum of a 14-year long-term maintenance (LTSA) agreement, starting construction in June 2025, ensuring ongoing presence in the area once the ...

### [Envision to deploy 240MWh France BESS near AESC gigafactory](#)

Kallista has selected Envision Energy as engineering, procurement, and construction (EPC) provider for its 2-hour battery energy storage system (BESS) project in Saleux, in the northern ...

**France looks to lithium - but can**

## projects get off the ground?

One of the country's largest lithium projects, EMILI, is being developed by French multinational Imerys. The project in Beauvoir, central France, where lithium was first detected in the ...

## Envision Energy Secures First Standalone Battery Storage Project in

Envision Energy has signed EPC (Engineering, Procurement, and Construction) agreement for a 120 MW / 240 MWh lithium iron phosphate (LFP) battery energy storage system ...
