

Hand crank jack for photovoltaic support

Overview

Don't let its size fool you — our Small Hand Crank Jack delivers reliable lifting power in a compact design. Ideal for manual positioning, height adjustment, or lifting applications where electric power isn't available or needed. Trailer jacks play an essential part in getting your trailer to the proper height for loading or unloading from the tow vehicle. With a 5,000 lb static capacity and lift capabilities of 1,600 lbs (manual) or 800 lbs (with a 20-24V drill and included Drill Attachment), it offers power and convenience. The stroke can be made as per your application. Permissible power (KW) With High. I built a wooden ground mount that holds 20 solar panels. It is balanced and adjusts by hand. Do you have any recommendations?

Thanks! Who likes Electrical Gremlins?
