

Homemade solar generator process

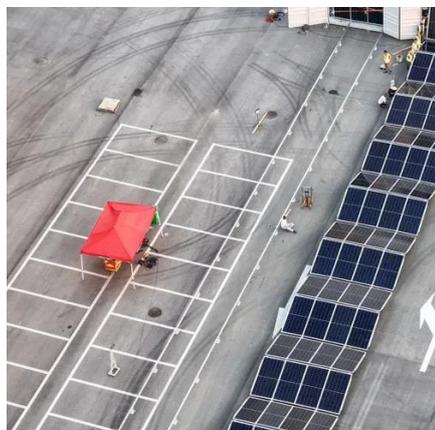

Overview

To build a solar generator, you'll need a solar panel, a charge controller, a deep-cycle battery, and an inverter. You don't need to be an expert to build one. With a few tools and some basic knowledge, you can create a reliable source of energy. It provides a portable power source ideal for emergencies, camping, or reducing reliance on traditional electricity. Then all the relevant input and output sockets are wired and mounted on the outside of the case where they are easily accessible.
