Electricity sector in Honduras

Overview
Electricity sector and the environment
Electricity supply and demand
Access to electricity
Service quality
Responsibilities in the electricity sector
Renewable energy
Energy efficiency

SERNA, the Ministry of Natural Resources and Environment, holds the responsibility in environmental issues, including climate change. This government agency is in a weak position due, among other things, to limited budgets and to the weakness of the civil service system. Also, ministry staff faces a total turnover whenever a new government takes over (i.e. every four years), which slows down its operations.

Electrification in Honduras

Honduras has granted distribution concessions to 7 utilities nationwide, with the state-owned Empresa Nacional de Energía Eléctrica (ENEE)

managing nearly 99% of the electricity grid.
