

# How about being a photovoltaic panel installer

## Overview

---

Begin your path to becoming a photovoltaic installer by earning at least a high school diploma or equivalent, focusing on subjects like math, physics, and electrical technology. These foundational courses build the critical thinking and technical skills needed for solar. **Exceptional Job Growth:** Solar installer positions are projected to grow 48% from 2023 to 2033, making it one of the fastest-growing occupations in the U. This growth is driven by federal incentives, declining equipment costs, and increasing environmental awareness. **Multiple Entry Pathways:** Unlike. Solar photovoltaic (PV) installers assemble, set up, and maintain rooftop or other systems that convert sunlight into energy. When a brand new solar system is shining in the sun, they watch over it.
