

How is the Sino-German joint venture photovoltaic panel

Overview

Speaking to German weekly news magazine Der Spiegel, Diess revealed that the plan is to form a consortium in which the European side will be the majority owner. JA Solar will be the largest individual shareholder in the new company. Each element plays a significant role in establishing a robust Sino-German solar energy alliance, ultimately enhancing renewable energy. HEFEI, Aug. 30 (Xinhua) -- Gleaming in the sunlight, rows of photovoltaic panels are neatly arranged in the Weesow-Willmersdorf solar park, located 26 kilometers northeast of Berlin, Germany. The solar park is expected to provide electricity to 50,000 households and reduce carbon emissions by. Dumped Chinese solar products are flooding the German market, forcing most domestic manufacturers to move abroad or close down. (Photo Credit: Markus Wissmann/Shutterstock. com) Herbert Diess, the former CEO of German automobile giant Volkswagen (VW), has picked Chinese solar PV.
