

# How much does it cost to connect collapsible containers to the network at Russian ports

## Overview

---

A study by the Boston Consulting Group revealed it costs the shipping industry almost US\$20 billion each year in repositioning empty containers. One out of every three containers shipped is empty, and this is approximately 60 million empty containers annually, absorbing roughly 8% of a shipping. Staxxon designs foldable intermodal shipping containers, a solution designed to tackle 'empty running', whereby empty containers clog ports and hurt supply. George Kochanowski is CEO of Staxxon, a company that has broken new ground by designing shipping containers that fold like an accordion and can. Concern: Collapsible containers cost up to 3x the cost of a standard container?

This is a valid concern. Collapsible containers are typically two to three times the cost of a standard container. The question is whether the use of a collapsible container can reduce costs to such a degree that the. The implementation of collapsible containers provides a new perspective for logistics cost savings, since using collapsible containers reduces the frequency of shipping freight.
