

# Ireland Cork Energy Storage Frequency Regulation Project

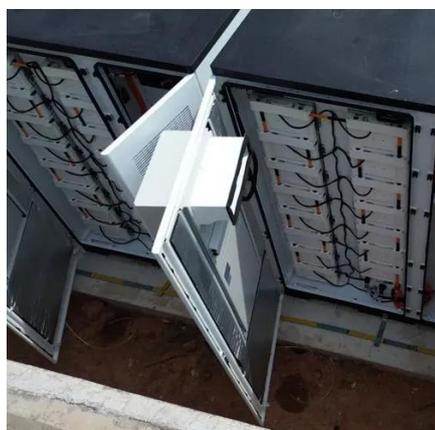

## Overview

---

The Electricity Supply Board has opened a new major battery plant at its Aghada site in County Cork. The project will add 150MW (300MWh) of fast-acting energy storage to provide grid stability and deliver more renewable power to Ireland's electricity system. Grid scale. In 2021 energy experts Baringa estimated that to hit the 80 per cent renewable electricity targets in Ireland and Northern Ireland by 2030 we would need at least 1,700 MW of battery storage Locals are contesting a grant of permission to plans for a battery energy storage system (ESS) facility near.

## Ireland Cork Energy Storage Frequency Regulation Project

### ESB officially opens its latest battery storage project in Co Cork as

These high-capacity batteries can store excess renewable energy for discharge when required, and in doing so, help to support Ireland in reaching its ambitious climate targets by 2030 ...

### [Ireland Cork Energy Storage Frequency Regulation Project](#)
