

# Is it good to install solar power generators in Syria

## Overview

---

In Syria, solar energy offers a complicated picture of affordability: it is thought to be a more affordable, dependable, and long-term alternative to costly, limited, and unreliable conventional energy sources like diesel generators, but it has a high initial investment. In Syria, solar energy offers a complicated picture of affordability: it is thought to be a more affordable, dependable, and long-term alternative to costly, limited, and unreliable conventional energy sources like diesel generators, but it has a high initial investment. The rapid adoption of solar power in northeast Syria, in areas controlled by the Democratic Autonomous Administration of North and East Syria (AANES), has been driven by severe electricity shortages, rising fuel costs, and prolonged drought conditions. With only 160 megawatts of power available to. This report was produced as part of the second round of Al-Jumhuriya's Grant Program for Syrian Women Journalists, which supports the production of in-depth journalistic projects related to topics of public interest in Syria or Syrian diaspora communities. The editor supervising this report was our. Due to acute power shortages and the need for dependable, reasonably priced energy for daily living, agriculture, and important services, solar panels are widely employed throughout Syria in various places to power houses, schools, hospitals, water pumps, and businesses. What Types of Solar. As companies generating electricity from solar energy have excess electric production, instead of storing the surplus in batteries - which is expensive for them - it is optimal for them to distribute the excess through the government's electricity network. Committed to transforming the electricity. Investment is beginning to return to the country with the lifting of U. sanctions, and major energy projects are planned, including an industrial-scale solar farm that would secure about a tenth of the country's energy needs.

## Is it good to install solar power generators in Syria

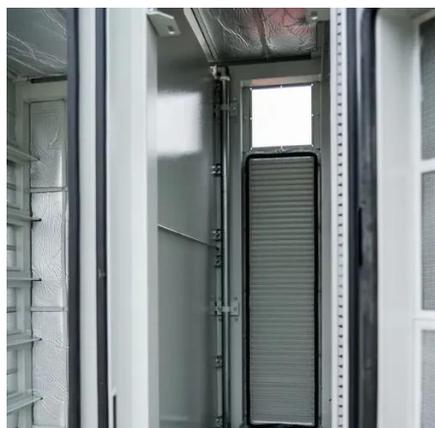

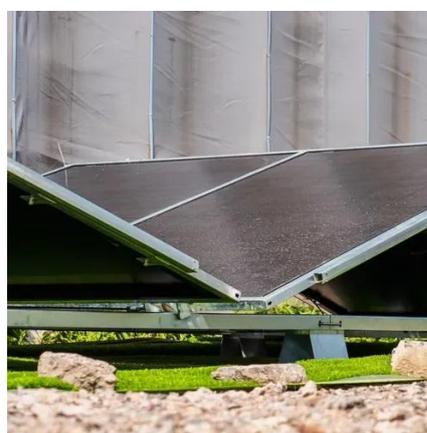

### Solar Energy in Syria

So, I had no choice but to 'bite the bullet' and install a solar energy system through a government-backed loan - especially since it's interest-free." This is how Mulham Jaafar, a ...
