BATTERY /6000 CYCLES

Overview

Kigali Solaire is a solar power plant in Rwanda and at the time of construction was Africa's largest grid-tied solar energy installation. It was built in 2006 on Mont Jali near the capital Kigali. The plant uses photovoltaics and has a peak output of 250 kW and an estimated annual output of 325,000. From residential rooftops to large-scale commercial installations, we deliver reliable off-grid and on-grid solar systems that reduce costs and carbon footprint. Innovative smart and green real estate development in Rwanda. Renewable energy solutions for rural communities. We listen to your brief and suggest options that match your design, budget and level of use.
