

Konka photovoltaic panel scam revealed

Overview

Did a salesperson knock on your door and promise free rooftop solar panels at no cost to you?

Or say you'll never have to pay another electricity bill because government programs, grants, or rebates cover your solar installation?

It's likely a scam. Many homeowners never get any solar equipment installed; those who do often get shoddy work. The con starts with a fast-talking salesperson offering a "limited time. Solar panel fraud has become a growing concern in the United States, leaving many homeowners stuck with hidden fees, inflated energy bills, and contracts they never fully understood. Scams, schemes and straight-up fraud abound in the dark underbelly of an otherwise light-filled industry. Some even. This article explores the most common solar panel scams, provides tips to recognize red flags, and offers guidance on protecting yourself from fraudulent solar companies. This site receives compensation from the companies featured in this listing, which may impact where and how products appear.
