

Longi photovoltaic panel prices increased

Overview

As of February 25, 2025, LONGi Green Energy has implemented a price adjustment for distributed generation systems, with increases ranging from ¥0.05/W due to recent power reform policies. This follows a surge in post-Lunar New Year demand across domestic and European. China's Longi says it will begin mass production of base-metal PV modules in the second quarter of 2026 as rising silver prices intensify pressure to reduce metallization costs. 26 -- Several leading Chinese photovoltaic companies have confirmed to Yicai that they hiked solar module prices after demand for the products recovered. "There has been a slight increase in prices," a representative from Trina Solar told Yicai, adding that prices per watt are now 2 to. Longi Green Energy Technology Co. The mass production of solar.

Longi photovoltaic panel prices increased

China's Longi to Replace Silver in Solar Panels to Reduce Costs

LONGi Green Energy Technology Co. will begin using base metals instead of silver in its solar cells, marking a major shift as surging prices of the precious metal increase cost pressure on

China's Longi joins solar push to cut costs by reducing silver use

Longi Green Energy Technology Co. will begin substituting base metals for silver in its solar cells, the latest move by the industry to mitigate the surging cost of the precious metal.

High Raw Material Costs Force LONGi to Hike Solar Panel Material ...

-- LONGi Green Energy Technology's recent move to increase the prices of its monocrystalline silicon wafers for solar panels was triggered by higher raw material costs, Yicai Global reported

[Have the prices of Longi photovoltaic panels increased](#)

Solar manufacturer LONGi Solar has increased prices for its range of PV wafers, sending them to four-month highs amidst ongoing spikes in the polysilicon price.

Latest Price Trends and Models of LONGi Photovoltaic Panels in 2025

As of February 25, 2025, LONGi Green Energy has implemented a price adjustment for distributed generation systems, with increases ranging from ¥0.03/W to ¥0.05/W due to recent power reform ...

Trina Solar and LONGi Increase Prices of Solar PV Modules, Other ...

After a period of declining prices, major Chinese solar manufacturers, led by Trina Solar and LONGi, are now reversing the trend with price hikes, marking a positive shift towards profitability ...

Chinese Solar Giants Raise Panel Prices as Demand Picks Up

Due to the electricity reform policies, factory prices of Longi Green Energy Technology's distributed products rose by 3 to 5 Chinese cents per watt last week, an insider close to the ...

High-efficiency Module, Longi solar

module

The release of the "Longi Life Cycle Standard" promotes the high-quality development of the photovoltaic industry. At the same time, the use of Longi standard orders has improved delivery ...

Rising silver prices drive China's Longi shift to copper-metallized

Chinese module manufacturer Longi has revealed that it will begin mass production of base-metal PV cells in the second quarter of 2026, moving toward copper-based metallization as ...

Major Chinese solar companies announce price increases for PV ...

On October 24, 2024, Trina Solar announced a price increase of 0.03 CNY/W for its entire range of solar modules. Following this, LONGi also declared that the prices of its B-type modules would rise by 1-2 ...
