

# Looking for land for solar power generation

## Overview

---

In this resource, we go over some must-haves if you want to lease your land for a solar farm, as well as factors that make the land more attractive to solar energy developers, and therefore worth larger solar lease payments to the landowner. We lease property from landowners to build solar projects. If you're curious if your land could be suitable for a. AES seeks opportunities to deliver added value through our best practices in project development to protect the land for future generations. Through land leases, we offer landowners the opportunity to tap into new sources of revenue on their land while retaining ownership throughout the entire life. By leasing land to solar developers, landowners can receive long-term passive income with predictable rates as well as a vast range of other benefits. You can do your part to fight climate change and help America achieve energy independence.
