

# Make a solar generator using a light bulb

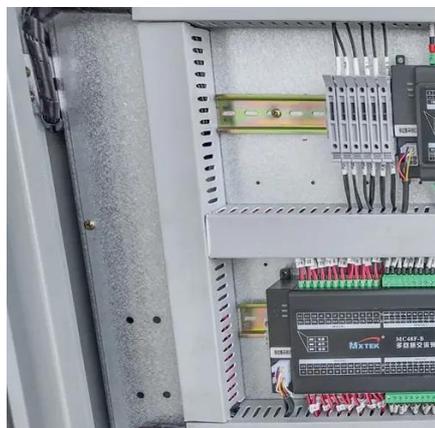

## Overview

---

In this exciting DIY experiment, watch how to build a free energy generator that lights a bulb without any fuel or battery!. In this exciting DIY experiment, watch how to build a free energy generator that lights a bulb without any fuel or battery!. DIY solar panel projects are the perfect introduction to creating sustainable energy solutions right at home! ☀️ By building your own homemade light generator, you can light up your space while slashing those energy bills. A great thing about solar energy is that it can come in all sizes for all types of applications. While you probably won't be firing up a bulky diesel generator to charge your phone, a DIY solar generator for RV can do exactly. Imagine having your very own DIY generator that you've crafted from scratch, practically for free. Drawing energy from the sun or wind to fuel your electronics, no matter where you find yourself, is within reach, even if you're not an expert. Strip about 1 inch of insulation from each end of a 1-foot long, red insulated wire and a 1-foot long, black.
