

Market share of wind power generation companies

Overview

Based on location, the on-shore segment led the market with the largest revenue share of 75. The Wind Power Market Report is Segmented by Location (Onshore and Offshore), Turbine Capacity (Up To 3 MW, 3 To 6 MW, and Above 6 MW), Application (Utility-Scale, Commercial and Industrial, and Community Projects), and Geography (North America, Europe, Asia-Pacific, South America, and Middle East). The global wind power market size was estimated at USD 97.05 billion in 2024 and is projected to reach USD 141.4 billion during the forecast from 2026 to 2035. The wind power generation market plays a pivotal role in the global. The world's wind power sector recorded strong growth in the first half of 2025, with global installations rising by 64% compared to the same period of 2024. A total of 72,2 gigawatts (GW) of new capacity were added between January and June 2025, following 44,1 GW installed in the first half of.
