

# Ottawa container energy storage transformation

## Overview

---

They work by drawing and storing energy from the grid during off-peak hours when demand is low, and discharging it back to the grid when needed. A city committee passed new regulations Thursday that lay out the ground rules for companies looking to build battery energy storage facilities in Ottawa, but residents are split on whether the new rules go too far — or not far enough. Evolgen, a renewable energy company based in Gatineau, Que. BESS facilities can be used to provide backup power to individual sites or. The battery storage project alongside the six solar projects Council supported earlier this fall will reduce the city's reliance on expensive gas-fired electricity during peak demand and strengthen Ottawa's ability to meet its climate and energy commitments.
