

PV inverter DC side parallel connection

CE UN38.3 MSDS

Overview

In this article, we will walk you through the process of connecting solar inverters in parallel, explaining the benefits and considerations along the way. This configuration allows several units to work as a single, more powerful inverter. Understanding how to properly. Up to 6 pcs hybrid inverters can be installed together in parallel mode. The two systems are the same: inverter SUN2000 (SUN2000-6KTL-L1 monophas) and a battery LUNA2000 10 kWh.
