

Photovoltaic panel unloading process

Overview

This video offers an exclusive insights into the process of unloading photovoltaic piers, showcasing the initial steps in setting up solar energy systems. From the delivery truck to the ground, witness how these essential parts are carefully handled to ensure a secure and. This manual provides comprehensive guidelines for the safe and efficient Unloading and storage of solar photovoltaic (PV) modules manufactured and supplied by JAKSON Engineers Limited. When you need to unpack and install the modules, you can search and download relevant content from Jinko's official website. In the process of loading and unloading, the forklift. If your modules are damaged on arrival, notify the driver immediately, notify carrier and LONGi staff within 24 hours of delivery, and provide a record with detailed information within 48 hours of delivery. See claims and warranties for full details.
