

Ranking of French solar power plants

Overview

Solar power in France including overseas territories reached an installed capacity figure of 24.5 gigawatts (GW) at the end of 2023, up from 17. [1][2][3] The country currently has the eleventh-most solar capacity in the world. Discover the industry leaders transforming Europe's third-largest photovoltaic market. Advanced algorithms predict weather to optimize panel angles. Solutions like Grace Solar's Energy. Solar PV capacity accounted for 16. This is expected to contribute 33. During the year, around 903 megawatts of new. Our AI-powered database combines millions of company and investor profiles, making it simple to filter, search, and benchmark opportunities. Explore this list as a starting point and connect with us to see how Inven can help you build tailored lists for sourcing and market discovery. Our analyst view notes how Neoen and Voltalia emphasize innovative project models and swift site acquisition to gain advantage. We develop a high efficiency compressed air energy storage solution.

Ranking of French solar power plants

List of 5 large French IPPs

In this article we present a list of five large Independent Power Producers of Renewable Energy from France.

[Top five solar PV plants in operation in France](#)

Listed below are the five largest active solar PV power plants by capacity in France, according to GlobalData's power plants database. GlobalData uses proprietary data and analytics to ...

[Top five solar PV plants in operation in France](#)

France in 2015 ranked eighth in the world in terms of solar PV installed capacity. During the year, around 903 megawatts of new installations were established.

Top France Solar Energy Companies

Get profiles of France Solar Energy companies - leading, established, and top emerging players - with analyst insights, competitive matrices, and strategic positioning details of these firms.

[Top 19 Solar Energy Companies in France](#)

Explore the top solar energy companies in France, like Photowatt and Akuo, that drive innovation in renewable solutions, boosting sustainability efforts.

[Largest solar power stations in France](#)

France in 2015 ranked eighth in the world in terms of solar PV installed capacity. During the year, around 903 megawatts of new installations were established.

[Top 10 Solar Companies in France 2025](#)

Complete 2025 ranking of top solar companies in France featuring Grace Solar at #3. Detailed analysis of market leaders, technologies & regulations.

[13 Top Solar Companies in France](#)

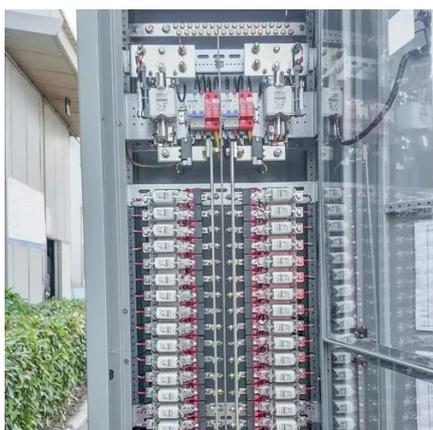

[February 2026 , F6S](#)

Detailed info and reviews on 13 top Solar companies and startups in France in 2026. Get the latest updates on their products, jobs, funding, investors, founders and more.

Solar photovoltaic energy in France

In 2023, the PV energy capacity in France amounted to approximately 20.5 gigawatts, making France the fifth European country for cumulative PV capacity that year. Despite this high ...

Solar power in France

France is aiming to increase its solar PV capacity from 11.5 GW in March 2021 to 23 GW by the end of 2023. The country offers feed-in tariffs for small-scale solar PV up to 100 kWp on rooftops for self ...

Solar Power Plants in France (Map)

Data and information about Solar power plants and their location plotted on an interactive map of France.
