- ✓ 19 INCH

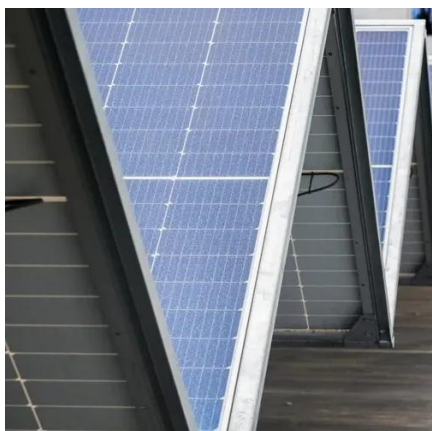

## Overview

---

The plant is located in Sudair industrial city, around Saudi Arabia's capital Riyadh. Today marks a significant milestone for SIG and Yellow Door Energy as they officially launched SIG's 2-megawatt solar project in Riyadh. The project, under the patronage of Saudi Authority for Industrial Cities and Technology Zones ("MODON"), emphasizes the importance of greening industrial cities. In the East direction, the solar yield power is up to 76 MWh and in the West direction the solar yield power is 74 MWh. The ZSC 100-400 can save up to 108 tons of CO2 annually as compared to similar range of diesel generators with virtually no fuel consumption. 5 GW of solar capacity, 600 MW of wind power, and 400 MW/1,200 MWh of battery storage, this megaproject aims to power 750,000 homes. LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere.
