

Rural Photovoltaic Panel Investment Promotion Program

Overview

The Rural Energy for America Program (REAP) offers federal grants and loans to help farmers and rural small business owners go solar, covering up to 50% of total project costs. Department of Agriculture (USDA) offers financial assistance to fund photovoltaic energy projects on your farm or ranch?

Solar panels can increase your operation's profitability. Strategic. This cutting-edge installation features 944 SunPower 327-watt modules paired with a Solectria SGI 250 inverter, designed to maximize efficiency and durability. This system generates an impressive 344,842 kWh in its first year and is projected to produce over 11,725,000 kWh over its lifetime. Although the USDA announced on March 26, 2025 that it intends to release previously committed REAP, New ERA, and PACE funds, implementation details remain unclear. If your project has met all requirements and still has not received awarded funding, please contact our. Discover the benefits and application process of the USDA REAP Grant for solar energy systems for farmers and rural businesses.
