

Santo Domingo s new solar panels

Overview

DOMINION Green is building the La Victoria solar park in Santo Domingo, with 64.7 MWp and 99,000 panels, generating 112,000 MWh/year of clean energy for thousands of homes. Growing demand for electricity and the need to reduce dependence on fossil fuels have prompted the Dominican Republic to. The national energy commission (CNE) of the Dominican Republic this week granted a definitive concession for a 83.6-MWp solar project with storage, while the nation's Vice President, Raquel Pena, led the inauguration of a 58. As global demand for renewable energy surges, the photovoltaic panel industry. In this region, PepsiCo began its journey of harnessing solar energy in 2019 and, to date, has managed to reduce nearly 49 thousand tons of carbon dioxide (CO₂) emissions in its manufacturing and transportation activities, which is equivalent to the total CO₂ emissions generated by approximately. The Dominican Republic is experiencing an unprecedented surge in investment in its energy sector, attracting substantial foreign and local capital, particularly in renewable energies.

Santo Domingo s new solar panels

Dominican Republic will be the country with the largest solar power

In the framework of Environment Day, 456 more panels will be inaugurated this June, making the Caribe Plant the site with PepsiCo's largest solar energy generation in Latin America.
