

Serbia Enterprise solar container energy storage system

Overview

Turkey-based developer and IPP Fortis Energy has acquired a solar and battery energy storage system (BESS) project in Serbia. The company plans to begin construction at the project, in Sremska Mitrovica, west of Belgrade, in 2025. These modular systems combine lithium-ion batteries, inverters, and thermal management in shipping-container formats. Last month, a Novi Sad factory cut energy costs by 62% after installing a 240kWh system from. Summary: Belgrade's ambitious 100 billion energy storage projects aim to transform Serbia into a regional leader in renewable energy integration. 4 MW containerized solar farm near Novi Sad achieved grid connection in just 11 weeks – a record for the Balkans. ” – Project. A close Serbian analogue to the Masdar-EPCG concept in Montenegro is the strategic partnership under which EPS Elektroprivreda Srbije and the Hyundai Engineering-UGT Renewables consortium agreed on a state-led rollout of utility-scale solar generation paired with battery storage.
