

# Smart microgrid projects under construction

## Overview

---

Here is a rundown of eight microgrid projects operational and in focus this year. At Microgrid Knowledge, we write plenty of stories about the power resilience that on-site power delivers during cataclysmic events. And we also cover those which are built for every day, not just the rainy day. While the list is not meant to be exhaustive — as microgrids are being deployed with increasing frequency — it provides a sampling of microgrids around the country. 5 times, bringing total to 32,470 MW by 2030.
