

# Solar charging and energy storage equipment for home use

## Overview

---

They cost less and require far simpler installation than rooftop systems, and have enough capacity to operate crucial household appliances like fridges and sump pumps, keep the lights on, and recharge communication devices — the basic necessities in an emergency. Here's what you need to know: Imagine this: a storm knocks out power in your neighborhood, but your lights stay on, your refrigerator keeps running, and. Unlock the power of the sun with SolarEdge's state-of-the-art home storage and backup systems - crafted specifically for American households. These advanced solutions capture any extra energy your solar panels generate during the day, helping your home stay powered 24/7. But there are so many options on the market; how do you know if the installer you're working with will carry the best brands?

That's where. In the last year, nearly two-thirds of solar. Why?

Because home battery storage has something to offer everyone—from backup power to bill savings to self-reliance.
