

Solar energy storage system installation in Cambodia

Overview

Kamworks core business is the design and installation of solar projects. Our services include conducting feasibility studies, maintenance as well as energy savings projects. Our team is trained to meet the highest standards in terms of HSE and quality. In the rapid evolution of household energy structures in Southeast Asia, GSL ENERGY's project deployments in Cambodia continue to expand. Following the successful installation of a 32 kWh mobile rolling energy storage system on July 13, 2025, we have recently delivered another 16 kWh mobile energy. Kamworks is the leading solar energy company licensed by Electricity Authority of Cambodia (EAC), providing solar technologies on a large scale in Cambodia. Storage systems are critical for nighttime power, especially where grid outages are frequent. In this project, the client selected two GSL-W-16K. Ecobatt Energy Cambodia is a leading provider of energy storage systems and power back-up solutions.
