

Solar lights solar container lithium battery led home use

Overview

This package includes two 14-watt vaporproof LED fixtures, one 265-watt solar panel and two 40aH lithium-ion batteries. At a fully charged state, the system can operate for two days (48 hours) without sunlight. The SPLEDXL-2XGVP241L-LED-2X250AH-M1 is a solar-powered lighting package. Check each product page for other buying options. Solar lights work by absorbing sunlight during the day and then using that energy to power the light at night. Solar powered lights are very popular because they are environmentally friendly. 30W Solar Lighting Kit SolarBoy Mini is very affordable and portable solar lighting system, generating easy and safe power for LED lighting and charging phones by USB port, after 12V 17Ah lead acid battery built-in charged by 30W solar panel. The system is designed with plug and play (PnP) connectors for easy assembly.
