

Solar photovoltaic panels want to be removed

Overview

The simple answer is yes; solar panel arrays are designed to be modular and demountable, not permanent fixtures. This necessity might stem from planned roof maintenance, system upgrades, or preparations for selling the property. Timelines may vary depending on the scope of work and crew availability, so we recommend starting. There are several reasons why a homeowner might consider removing solar panels: Relocation: Moving to a new home may prompt the need to remove solar panels, especially if the new property is not suitable for solar installation. You might also need to bring down your panels for other reasons such as fixing storm damage, making home improvements, or upgrading your system.
