

Solomon Islands wind solar and energy storage project construction

Overview

The Solomon Islands Renewable Energy Development Project plans to finance new solar farms in Guadalcanal and Malaita provinces, along with a utility-scale grid-connected energy storage system in Honiara, the country's capital. It will also support a pilot for rooftop solar at two. With a capital expansion programme of over SBD1 billion, Solomon Power strives to develop and implement its planned capital and infrastructure projects over the next five years that will support its mission to provide a safe, reliable and affordable supply of electricity to the Solomon Islands. The Saudi Fund for Development (SFD) has pledged to extend USD 10 million (EUR 9. This ambitious project, which includes integrated storage systems to ensure a steady electricity supply, is a cornerstone. Summary: The Solomon Islands' newest energy storage initiative combines solar power with advanced battery systems to address energy challenges.
