

Sudan lithium battery bms characteristics company

Overview

Over 160 dedicated R&D professionals driving continuous innovation and advancing cutting-edge technology. Full product range support for UL, CE, IOS, IEC and VED certifications. Advanced automated production lines delivering efficient and reliable manufacturing capacity. Operating in 30+ countries. A Battery Management System (BMS) is the brain and safety layer of any lithium battery pack. It monitors cells, protects against abuse, balances differences between cells, estimates state of charge/health, and communicates with the rest of the device or vehicle. Learn about market trends, local manufacturing advantages, and sustainable solutions shaping Africa's clean.
