

# Supply of wind turbine blade consumables

## Overview

---

In this category you will find consumables for wind turbines and rotor blades. With access to a wide range of products from various manufacturers, we can help you find the right spare. Marex Composites is a trusted partner in the wind energy industry, delivering advanced composite materials and engineered solutions that optimize turbine performance and reduce manufacturing complexity. As wind turbine owners increasingly take on the responsibility of maintaining their wind farms, effective spare. G2WIND is dedicated to the sale of wind turbine spare parts and consumables via specialised partners. This makes managing purchase of spare parts procurement crucial. G2WIND was founded. Global manufacturing capacity for wind turbines has doubled since 2008, and worldwide installations of wind power reached new highs in 2012, adding more than 46 GW of capacity to electric grids (BNEF 2013).

## Supply of wind turbine blade consumables
